RE: Halogen Compliance

To Whom It May Concern:

According to our manufacturers, Halogens are not intentionally added as an ingredient in the manufacturing of IDENTCO products and is not expected to be present in the final product composition. If any of these substances happen to be present, it would be there only at a trace level. The manufacturer has also indicated that no testing has been conducted to determine the presence of these substances.

The disclosed information referenced above is, to the best of our knowledge, based solely on the data information provided by our raw materials suppliers. Because label and Packaging Materials has not conducted testing, we recommend that you or your customer(s) make your own determination on the suitability of the product listed above for your particular application.

We believe this information is accurate and is offered in good faith. This information is subject to revision when additional knowledge/information is gained.

I hope we have answered your questions. For more information, please contact your Sales Representative or Customer Service Consultant.

Regards,

Ralph Rhein
