ELP® I

Thermal Transfer Printers

IDENTCO's ELP® I thermal transfer printer provides excellent print quality at a low cost, saving money without sacrificing performance. This printer offers two configurations with interchangeable printheads for 300 or 600 dpi resolution. Stand-alone printing promotes cost savings by ease of use, freeing up valuable floor space and allowing diverse printer placement. No PC needed.

Features and Benefits

- Interchangeable print heads
- Exceptional print registration
- Handles web widths narrow as 0.45"
- Center-align version
- Large color LCD touch screen
- Minimal waste during calibration
- Easy loading and removal of media
