Thermal Transfer Printers

ELP® M

The ELP-M combines all the capabilities of an industrial printer with a versatile range of applications. Featuring a large, colorful touchscreen with intuitive icons, the ELP-M offers exceptional ease of use. You can choose between 300 or 600 DPI resolution, allowing you to tailor the print quality to your specific needs. The advanced electronic board comes equipped with all essential interfaces as standard, making it ready for any connection.

Features and Benefits

- Interchangeable print heads
- Exceptional print registration
- Handles web widths narrow as 0.45"
- Center-align version
- Large color LCD touch screen
- Minimal waste during calibration
- Easy loading and removal of media
